

# What to expect once Appeal has been lodged

Once the SENDIST Tribunal has received the appeal, they will notify us (as we are your representative) this can take up to 30 working days as the Tribunal is a national service and not just to your local area. They will send a registration letter which will include your individual reference and all the important dates including:

The LA must send its response to us

Both parties must send each other any further evidence

Both parties must send a completed case review form to include any witnesses

The LA must produce a bundle with all relevant paperwork that has already been submitted (by both parties) to both us and the Tribunal

The Hearing Date\*

\*For Refusal to Assess – it is a paper hearing only (no need to attend). They will give us a month's window for the tribunal, and inform both parties of the exact date, 10 days prior.
